

### Italstyle Tender

Italstyle Yacht Design introduces an innovative design for a 12-person boat of 13 metres, a new tender of very fashionable style. A twin-engine propulsion plant of 2 x 400 hp provides the boat a top speed of 40 knots and a cruise speed of 33 knots. Standard design features include a Queen bed sleeping area, auto bilge pumps, custom hull colours and a teak burma quality deck.

### Techtonic Design

The years 2006 and 2007 have seen another increase in requests from clients, designers and shipyards for Techtonic's design services. This encouraging acknowledgement underlines the many benefits that Techtonic Design can bring to a yacht project. Answering the specialist design requirements and equipment specification for
